West Downtown Improvements \$3,500,000

PROJECT DESCRIPTION:

The program will improve the West Downtown Neighborhood with a series of capital improvements – the two primary projects are improvements to the Anapamu and Ortega Street pedestrian corridors. Proposed corridor improvements include upgrading pedestrian amenities such as sidewalk replacement where necessary, general landscaping improvements where appropriate, and the possibility of additional pedestrian lighting where appropriate. Improvement of these two corridors will strengthen the pedestrian connection between the west downtown and downtown. Improvements to Westside Center Park will also be included.

PROJECT MANAGER:

Brian Bosse,
Redevelopment Supervisor

NOTES:

The current account balance is approximately \$3,138,000.
